Year 10 Functional Skills Mathematics Examination

Dear Parents/Carers,

As communicated earlier this year, your child will be taking a Functional Skills Mathematics examination. This qualification provides students with the opportunity to gain an additional nationally recognised mathematics qualification alongside their current studies.

I am writing to confirm that the examination will take place on **Tuesday 23rd June 2026**.

Preparation for the examination will continue during mathematics lessons; however, independent revision can make a significant difference to students' confidence and performance. I would strongly encourage students to undertake some additional practice at home. A particularly useful free resource is www.passfunctionalskills.co.uk, which provides a range of revision materials, practice papers, worksheets and answers.

If you have any questions or require further information, please do not hesitate to contact me.

Yours sincerely,

J Barber

Mrs J Barber
